Pupil premium strategy statement – St Paul's C of E Primary School

This statement details our school's use of pupil premium funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the outcomes for disadvantaged pupils last academic year.

School overview

Detail	Data
Number of pupils in school	412
Proportion (%) of pupil premium eligible pupils	28%
Academic year/years that our current pupil premium strategy plan covers	2024/2025-2027/2028
Date this statement was published	19/11/2024
Date on which it will be reviewed	July 2025
Statement authorised by	Louise Kaye
Pupil premium lead	Claire Blackmore
Governor / Trustee lead	Andrew Harrow

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£176,366.70
Pupil premium funding carried forward from previous years	£0
Total budget for this academic year	£2,091,586.43
If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	

Part A: Pupil premium strategy plan

Statement of intent

At St Paul's Primary School, we intend that all pupils, irrespective of their background or the challenges they face; are included in all aspects of school life, enjoy school, achieve to the best of their potential and make good progress in all subjects.

The intention of our pupil premium strategy is to support disadvantaged pupils to achieve that goal by removing social, emotional and academic barriers to learning. We include the progress of those who are already high attainers.

While planning for pupils who are in receipt of pupil premium funding, we also consider the challenges faced by all vulnerable pupils, such as those who have a social worker and young carers, regardless of whether they are disadvantaged or not.

Our approach is primarily rooted in quality first teaching, with a focus on areas in which disadvantaged pupils require the most support and ensuring all pupils are challenged in the work they are set. This is proven to have the greatest impact on closing the disadvantage attainment gap and at the same time will benefitthe non-disadvantaged pupils in our school.

We supplement our high quality teaching with carefully considered more targeted approaches for pupils who need more support. These approaches include targeted intervention on a one to one and small group basis. We select these approaches carefully, through ensuring only high quality, research-led approaches are taken and through the use of diagnostic assessments and robust teacher assessment to ensure theapproaches we use meet the needs of individuals.

In summary, we adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve; whilst acting early with any additional interventions to ensure needs are met as soon as practically possibly after identification.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Observations and discussions suggest that the wellbeing of disadvantaged pupils has been more negatively impacted by the school closures and the pandemic than their peers. There has been a significant increase in the number of referrals made to the inclusion team regarding the wellbeing of pupils, particularly those that are disadvantaged. There is significant number of children who currently require additional support with social and emotionalneeds, and are receiving one to one or small group interventions.
2	Assessments, observations and general conversation show a deficit in the quality of oracy and the use of vocabulary. This is particularly prevalent amongst disadvantaged pupils.
3	Our attendance data consistently indicates that attendance among disadvantaged pupils has been lower than for non-disadvantaged pupils. Our assess- ments and observations indicate that absenteeism is negatively impacting dis-advantaged pupils' progress.
4	Internal data demonstrates that attainment in writing for disadvantaged pupils, who do not have special educational needs, is lower than for pupils who are not disadvantaged. This is supplemented by observations and assessments of all pupils, that show that disadvantaged pupils find it more challenging to apply the phonic knowledge they have acquired in both reading and writing.
5	Internal data demonstrates a very slight difference in the progress of disadvantaged pupils in maths (1% lower) and this is limited to specific year cohorts, where the proportion of pupils with SEN is significantly higher.
6	On entry to Reception, many of our disadvantaged pupils arrive below age-related expectations compared with other pupils.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
To achieve and sustain improved wellbeing for all	Sustained high levels of wellbeing from 2024/25 demonstrated by:
pupils in our school, particularly our disadvantagedpupils.	 qualitative data from Boxall profile, student voice, student and parentsurveys and teacher observa- tions
	 a significant increase in participation in enrich- mentactivities, particularly among disadvantaged pupils
Improved oral language skillsand vocabulary among disadvantaged pupils.	Assessments and observations indicate significantly improved oral language among disadvantaged pupils. Thisis evident when triangulated with other sources of evidence, including engagement in lessons, book scrutiny and ongoing formative assessment.
To achieve and sustain improved attendance for all	Sustained high attendance from 2024/25 demon- strated by:
pupils, particularly our disadvantaged pupils.	 Improved attendance figures for all pupils. The attendance gap between disadvantaged pupils and their non-disadvantaged peers being reduced.
Improved reading and writingattainment among disadvantaged pupils.	Outcomes across KS2 for reading and writing in 2024/25 show that the percentage of disadvantaged pupils meetingthe expected standard is at least in line with national aver-age.
Improved maths attainment fordisadvantaged pupils at the end of KS2.	Outcomes across KS2 for maths in 2024/25 show that thepercentage of disadvantaged pupils meeting the expectedstandard is at least in line with national average.
Improved attainment across core subjects for disadvantaged pupils who start at lower levels when they join our school	Increased percentages of disadvantaged pupils making better than expected levels of progress

Activity in this academic year This details how we intend to spend our pupil premium funding this academic year to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention) Budgeted cost: £ 64,639.86

Activity	Evidence that supports this approach	Challenge number(s) addressed
Continued CPD to ensure that the Wellbeing Curriculum is embedded throughout the school. The Wellbeing curriculum includes use of Emotion Coaching, Zones of Regulation, Story Writing Project.	There is extensive evidence associating childhood social and emotional skills with improved outcomes at school and in later life(e.g., improved academic performance, attitudes, behaviour and relationships with peers): <u>EEF_Social_and_Emotional_Learning.pdf(ed- ucationendowmentfoundation.org.uk)</u> Zone of Regulation is a recognized approach to understanding, managing and regulating feelings and emotions and is based on extensive research. Having monitored the wellbeing of children, it was identified that emotional dysregulation was primary factor in poor mental health. <u>https://zonesofregulation.com/research/</u> Storybook project is a high quality, research based programme <u>https://story-project.co.uk/about- us/research/</u>	1
Continued CPD (includ- ing funding of teacher re- lease time & purchase of resources) for staff to en- sure that dialogic activi- ties are embedded across the curriculum.	There is a strong evidence base that suggestsoral language interventions, including dialogic activities such as high-quality classroom discussion, are inex- pensive to implement with high impacts on reading: <u>Oral language interventions Toolkit Strand Educa- tion Endowment Foundation EEF</u>	2, 6
Purchase of a Systematic Synthetic Phonics programmeto secure stronger phonics teaching for all pupils.	Phonics approaches have a strong evidencebase that indicates a positive impact on the accuracy of word reading (though not necessarily comprehen- sion), particularly for disadvantaged pupils: <u>Phon- ics Toolkit Strand Education Endow-ment Foun- dation EEF</u>	4, 6
Continued CPD (includ- ing funding of teacher release time) to continue to enhance our maths teaching and curriculum planning in line with DfE andEEF guidance. We will engage with NE Hants and Surrey Maths Hub to complete the Teaching for Mastery Programme.	The DfE non-statutory guidance has been pro- duced in conjunction with the National Centre for Excellence in the Teaching of Mathematics,drawing on evidence-based approaches: <u>Maths_guid- ance_KS_1_and_2.pdf (publish-ing.service.gov.uk)</u> The EEF guidance is based on a range of thebest available evidence: <u>Improving Mathematics in Key Stages 2 and 3</u>	5
Purchase of standardised diagnostic assessments. Training for staff to ensure assessmentsare interpreted and administered correctly.	Standardised tests can provide reliable insights into the specific strengths and weaknesses of each pupil to help ensure theyreceive the correct additional sup- port throughinterventions or teacher instruc- tion: <u>Standardised tests Assessing and Monitoring</u> <u>Pupil Progress Education Endowment Foundation </u> <u>EEF</u>	2,4,5,6

Targeted academic support (for example, tutoring, one-to-one support, structured interventions) Budgeted cost: £ 61,275.71

Activity	Evidence that supports this approach	Challenge number(s) addressed
Targeted SEMH interventionto support the wellbeing of pupils, particularly disadvantaged – Nurture, Therapeutic Story Writing, Early Morning Club, Expressing Emotions through Art and ELSA	There is extensive evidence associating childhood social and emo- tional skills with improved outcomes at school and in later life (e.g., improved academic performance, attitudes,behaviour and relation- ships with peers): <u>EEF_Social_and_Emotional_Learning.pdf (educationendow</u> <u>mentfoundation.org.uk)</u> The Nurture Group Network believes that schools are an excellent setting for promoting and improving children's emotional wellbeing, building resilience and establishing and promoting good mental health and wellbeing. We recommend that to do this, schools need to embed nurturing principles, either through use of nurture groups or by becoming 'nurturing schools', and through use of the Boxall Profile to assess and monitor wellbeing. <u>https://committees.parliament.uk/writtenevidence/76808/pdf/#:~:text=5</u> <u>%20Long%2Dterm%20mental%20health,than%20remaining%20in%20</u> their%20mainstream	1
	Through the International Journal of Nurture in Education and our own research reports and projects, we gather and promote research on the impact of nurture principles and provision, so that every child is ready and able to learn. <u>https://www.nurtureuk.org/research-evidence/</u> The evidence-base shows Therapeutic Storywriting Groups develop pupils' emotional wellbeing and improve academic literacy skills. <u>https://therapeuticstorywriting.co.uk/research/research-tsw-groups#:~:text=The%20results%20showed%20that%20the,supported%%20that%20the,supported%%20that%20the,supported%20that%20the,supported%20that%20the,supported%20that%20the,supported%20that%20the,supported%20that%20the,supported%20that%20the,supported%20that%20the,supported%20that%20the,supported%20that%20the,supported%20that%20the,supported%20that%20the,supported%20that%20t</u>	
	Our updated evaluation found that supporting schools to run a free of charge, universal breakfast club before school delivered an average of 2 months' additional progress for pupils in Key Stage 1 <u>https://educationendowmentfoundation.org.uk/projects-and-evaluation/projects/magic-breakfast#:~:text=EEF%20Summary&text=Our%20updated%20evaluation%20found%20that,pupils%20in%20Key%20Stage%202.</u>	
	emotions, while also having an enjoyable time during sessions, resulting in them being able to engage more when back in class. <u>https://schools.sla-</u> <u>online.co.uk/Article/152957#:~:text=Art%20therapy%20in%20schools</u> <u>%20has,more%20when%20back%20in%20class</u> . There is a growing body of evaluative research endorsing the beneficial contribution of ELSA to the emotional wellbeing of school pupils is represented, an increasing amount of it at doctoral level. https://committees.parliament.uk/writtenevidence/75740/pdf/	

School-ledtu- toring for pu- pils whose ed- ucation has been most im- pacted by the pandemic.A significant pro- portion of the pupils whore- ceive tutoring will be disad- vantaged, in- cluding those who are high attainers.	Tuition targeted at specific needs and knowledge gaps canbe an effective method to support low attaining pupils or those falling behind, both one-to-one: <u>One to one tuition EEF (educationendowmentfounda-tion.org.uk)</u> And in small groups: <u>Small group tuition Toolkit Strand Education EndowmentFoundation </u> <u>EEF</u>	2,4,5,6
Additional phonics sessions targeted at disadvantaged pupils who require further phonics support.	Phonics approaches have a strong evidence base indicatinga posi- tive impact on pupils, particularly from disadvantaged back- grounds. Targeted phonics interventions have been shown to be more effective when delivered as regular sessions: <u>Phonics Toolkit Strand Education Endowment Foundation</u> <u>EEF</u>	4
Additional maths sessions targeted at disadvantaged pupils who require further maths support.	Tuition targeted at specific needs and knowledge gaps canbe an effective method to support low attaining pupils or those falling be- hind, both one-to-one: <u>One to one tuition EEF (educationendowmentfounda-tion.org.uk)</u> And in small groups: <u>Small group tuition Toolkit Strand Education EndowmentFoundation </u> <u>EEF</u>	5

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £ 50,451.11

Activity	Evidence that supports this approach	Challenge number(s) addressed
CPD on Opal, Nurture, Therapeutic Story Writing, Primary Equity Programme, Forest Schools, Wilder Schools.	The Primary Equity Programme is delivered by SAFE and the content of the programme is based on leading evidence-informed research. The programme is lead by the Lead Advisor for Underserved Learners for HFL Education and author of 'The A-Z of Diversity & Inclusion', Rachel Macfarlane – with the focus on schools developing a culture of equity rather than equality, and to ensure that all learners have a sense of belonging at school, positively impacting attendance and behaviour. This series of four face-to- face sessions will cover family engagement, addressing unconscious bias, growing status and self-efficacy of underserved learners and effectively using data to ensure inclusion. The Forest School Ethos is a child- centred inspira- tional learning process that offers opportunities for holistic growth. The program supports play, explo- ration and supported risk taking. There is strong ev- idence to suggest thisprocess helps learners to de- velop socially, emotionally, spiritually, physically and intellectually. Through hands-on experiences. https://forestschoolassociation.org/what-is-forest- school/ (see above re Nurture & Therapeutic Story Writing)	1
Embedding principles of good practice set out in the DfE's <u>Im-</u> <u>proving School Attend-</u> <u>ance</u> advice. This will involve training and re- leasetime for staff to develop and imple- ment new procedures and appointing attend- ance/supportofficers to improve attendance.	DfE's Improving School Attendance advice. The DfE guidance has been informed by engagement with schools that havesignificantly reduced levels of absenceand persistent absence.	3
Contingency fund for acute issues.	Based on our experiences and those of similar schools to ours, we have identified a need to set a small amount of funding aside to respond quickly to needs that have not yet been identified.	All

Total budgeted cost: £ *£*176,366.70

Part B: Review of the previous academic year

Outcomes for disadvantaged pupils

Disadvantaged pupils have continued to make good progress across the curriculum.

External data indicates that disadvantaged pupils who do not have a SEN, generally do as well as non-disadvantaged pupils academically. The majority of our disadvantaged pupils in Year 6 last year, also had a SEN. However, for the small group of disadvantaged pupils who did not have a SEN, 100% reached the standard in Reading and all but 1 pupil reached the standard in Maths and in Writing. Additionally, 38% of this group achieved a Greater Depth in Reading and 13% achieved a Greater Depth in Maths.

Internal data indicates that the progress of disadvantaged pupils broadly matches those of pupils who are not disadvantaged and is slightly higher overall in Writing. Whilst attainment in core subjects continues to be lower for disadvantaged pupils overall, the attainment of those disadvantaged pupils who do not have SEND is in line with non-disadvantaged pupils.

Targeted interventions run by teachers and support staff have had a positive impact on progress.

The new phonics programme and targeted interventions meant that all children made good progress with their phonics and in Year 1 83% met the threshold. In Year 2 the majority of children re-sitting the screen check met the threshold which meant that 85% of children entered Year 3 with an expected level of phonics.

All staff have received Emotion Coaching CPD from an Educational Psychologist, as part of the school's ongoing CPD package. Positive relationships with staff have continued to develop with disadvantaged pupils and their families, especially bythe Family Support Worker and the Inclusion Support Assistant. Approximately 25% of the school's pupils attended an additional SEMH intervention. All of these initiatives have had a beneficial effect on pupil and family wellbeing.

The introduction of Opal Play has been hugely successful with all pupils indicating that they preferred play times now and very positive feedback from staff, parents and other stakeholders.

Over the academic year, members of staff have received quality CPD from trained practitioners in delivering Forest School as part of the Infant curriculum. All Infant children regularly attend Forest School sessions.

Progress towards our Intended outcomes

Intended outcome	Success criteria
1 To achieve and sustain improved wellbeing for all pupils in our school, particularly our disadvantagedpupils.	Qualitative date confirms pupils have benefitted from the introduction of Opal Play this year, as well as the continued use of Zones of Regulation and the Story Project. Data and feedback confirms that 100% of pu- pils who had additional emotional intervention last year had improved wellbeing. Good progress was made towards this target last year and already further progress is being noted with the implementation of new programmes, such as Nurture. The introduction of the Boxall Profile this year will enable quantitative data to support the findings for the review of this year's work towards the plan.
2 Improved oral language skillsand vocabulary among disadvantaged pupils.	Assessments and observations indicate significantly improved oral language among disadvantaged pupils. Thisis evident when triangulated with other sources of evidence, including engagement in lessons, book scrutiny and ongoing formative assessment.
3 To achieve and sustain improved attendance for all pupils, particularly our disadvantaged pupils.	Attendance data tells us that attendance slightly im- proved for all pupil groups last year, compared to the previous year. With the exception of GRT, all pupil groups achieved at least 90% attendance.
4 Improved reading and writingattainment among disadvantaged pupils.	98% of disadvantaged pupils have made at least expected progress in Reading and Writing across the year. Continued good progress is required to increase the percentage of disadvantaged pupils working at the expected standard.
5 Improved maths attainment fordisadvantaged pupils at the end of KS2.	Outcomes from 2024 tells us that 100% of our disadvantaged pupils made at least expected progress in Maths and that all but one of our disadvantaged pupils who did not have a SEN reached at least the expected standard in Maths (88%).
6 Improved attainment across core subjects for disadvantaged pupils who start at lower levels when they join our school	98% of disadvantaged pupils have made at least expected progress in Reading and Writing across the year; 97% of disadvantaged pupils have made at least expected progress in Maths across the year. Good progress has been made towards this target.

Externally provided programmes

Please include the names of any non-DfE programmes that you used your pupil premium to fund in the previous academic year.

Further information

The Head Teacher and Inclusion Lead are completing SAFE's Primary Equity Programme this year to support the school's work on striving to ensure that all pupils are enabled to achieve high standards. This includes work on identifying all vulnerable pupils, not just those with the 'disadvantaged' label; identifying any unconscious bias that exists to ensure that all school staff have high expectations for all and continuing to review and refine our school approaches.
